With more than 7 years of professional experience, Martín has been counsel for clients across a wide range of industries and transactions, including mergers and acquisitions, financings within and outside of the financial market (structured financings, project finance, stock issuances), joint debt restructurings (including the negotiation of workouts).

He has also advised on public contracts with municipal, state and federal governments and corporate restructures (design and implementation of corporate governance structures). Likewise, he assists financial institutions regarding regulatory matters and clients regarding insolvency related issues.

In the context of technology, media and telecommunications (TMT) industries, specifically in the tech and entertainment sectors, Martín represented companies in several acquisition processes, artists from the music, food, T.V., movie and theatre industries and has advised clients in transactions regarding movie and series production, coproduction, distribution and licensing, live-show production and promotion, streaming or video-on-demand (VoD) platforms, and different intellectual property agreements.
