“

*The team at Santamarina y Steta is always pushing the level of service to a higher place. When communicating with them regarding our needs, their response is always extraordinary. They have a deep knowledge of the energy market practices, which allows them to provide accurate advice not only from a legal standpoint but also from a business perspective.*

**Chambers and Partners**

## Who we are

We are a Mexican full-service law firm that provides highly specialized corporate and transactional advice to national and international clients in various sectors and industries. We also represent clients in high-value litigation cases and in enforcing arbitration awards.

As legal experts in Mexico, we understand the circumstances that clients face when establishing or expanding their businesses in the Mexican market. Our team of experts designs strategic solutions with a global perspective that translates into successful results.

## Strategic Solutions

- + Strategic, comprehensive, and tailored solutions
- + Extensive knowledge of the Mexican legal market
- + Specialized advice to prevent legal risks
- + Highly qualified attorneys in various practice areas and industries
- + Synergy and close collaboration with clients
- + Extensive international network of contacts and alliances
- + Timely response and flexible costs
- + Global perspective in a local context to support business growth

## Energy, Petroleum and Gas

We are distinguished by our experience and reputation in the development of energy projects. We advise national and international clients in the development and operation of electric, wind, and photovoltaic projects, in regulatory, real estate, environmental, social impact, corporate and financial matters.

In the hydrocarbons and petroleum sector, we participate in the storage, distribution, compression, liquefaction, decompression, regasification, transportation, marketing and retailing of natural gas, liquefied petroleum gas, petroleum products, and petrochemicals. We also advise in the management of integrated systems, service stations, gasoline and diesel import and export permits, hydrocarbon exploration and extraction projects, as well as in the subscription and administration of the respective contracts and in the fulfillment of commitments and obligations under the contracts and applicable regulation.

This is one of our most active specialty fields. Our Firm has always been recognized for its vast expertise as an active member in the development of energy projects; including, among others, Power, Natural and Liquefied Petroleum Gas (LPG) related projects, Natural Gas, Oil products, Renewable Energy and Bioenergy projects.
