With over 8 years of professional experience advising national and international clients, Elena specializes in corporate and transactional law with a focus on the energy sector.

Her practice centers on the development and implementation of projects for the generation, storage, supply, and commercialization of electric power, as well as advising on the negotiation and execution of related contracts.

She also provides counsel on regulatory procedures with government entities (CNE, SENER, CENACE, CFE) and delivers tailored compliance advice to companies specializing in the electricity sector.

Her experience includes coordinating legal strategies for electricity projects, including renewable energy and energy storage initiatives.

Elena has worked at prestigious law firms such as Santamarina y Steta, as well as leading companies in the sector including Energía Real and Quartux México, contributing to key projects for Mexico's energy transition.
